# PR2700 white-chrom

VERY HIGH RESISTANCE

Homeowners can protect themselves against forced entry attempts with this VdS-certified security door bar.

Small rod, big effect: With the armoured security door bar you secure your wooden, metal and plastic doors reliably against burglars. The bolt is fitted across the entire width of a door from 73.5 to 103 centimetres. It grips firmly into two lock casings that are anchored into the masonry. Due to its special drive mechanism, the security door bar can be used quietly. Fixing material and three keys are included in the scope of delivery.

## Technologies

- Secures the door over the whole width
- Strong wall anchor: ensures maximum strength against physical attack
- For door widths from 735 - 1 030 mm
- Locks with two turns
- Integrated pulling protection for door cylinder
- Standard version incl. anti-pull protected escutcheon and ABUS Pfaffenhain cylinder (30/60)
- Significant noise reduction by special drive components
- Cylinder can be exchanged easily to integrate the lock into master keyed systems
- Fitting instructions and fitting materials included
- Incl. three keys
- Comprehensive accessories can be used

## Operation and use

- For all doors made of wood, metal and PVC
- To be locked with a key from both inside and outside
- Can be used for doors DIN R/DIN L
- Suitable for outward opening doors using accessory PA 1018
- Can be combined keyed alike
- VdS-approved in conjunction VdS Class A or higher approved door cylinders

## Variants

- Colors: Brown, stainless steel look, white-white, white-chrome
- Wall anchoring PWA 2700 W for ideal locking into the wall
- Also available without a cylinder
