141/200 black + Diskus® 26/70

FOR VANS, BOX VANS AND STORAGE CONTAINERS

Our DI141 DISKUS® Integral hasp has a security hasp with integrated Diskus® lock and fits the most common transportation and storage containers.

Versatile, double protection: With our Diskus® integral hasps you secure doors and gates without a rebate. Our Diskus® integral hasps were especially developed to secure motor vehicle wing and sliding doors. However, they are an equally very good way to protect barns and containers from break-ins. The integrated Diskus® lock of 70 millimetres is protected by a robust metal lock casing all around from breaking open and from splash water. The frontal cylinder access enables convenient operation.

Technologies

- Universal hasp with integrated Diskus® padlock (70 mm) for doors and gates without rebate
- Easy to operate with one hand due to handy frontal cylinder access
- Extremely corrosion resistant cylinder
- Solid metal locking case almost completely prevents successful attacks on the integrated padlock
- Interchangeable Diskus® lock
- Fixing material (screws, drilling template and spacers up to 5 mm height levelling) and Diskus® lock are included
- Corrosion protected

Operation and use

- Universal hasp with integrated Diskus® padlock to secure doors and gates without rebate
- Will fit on most common transport and storage containers
- Also ideal for use on double wing doors (transporters, box waggons)
- Only for 70-mm Diskus padlock

Variants

- Colours: white, black
- Supplied with or without optional Diskus lock
- Includes mounting and height-adjustment materials (up to 5 mm) and drilling template
