Tresorflex 6615C/85/15 black + bracket SCMU

SECURE IN JUST ONE TURN

Instead of searching for your key, with the Steel-O-Flex™ Tresorflex 6615C it's simply a case of: select the numerical code you want, set the number reel and secure your bike.

This clever cable lock is full of ABUS quality: the 15mm steel sleeves that envelop the steel cable makes things twice as difficult for thieves. In addition, the mechanism of the Steel-O-Flex™ Tresorflex 6615C is effectively equipped to protect against tampering thanks to its special touch protection.

Comfort first: the digits on the number wheel are so clearly moulded that you are still able to set the right combination for unlocking even at night - just by touching them. And the Snap Cage bracket is both universally mountable and also simple and convenient to use in daily life.

Technologies

- Overlapping steel sleeves with a diameter of 19/32" protect the steel cable inside
- Plastic coating to prevent damage to the bicycle's paintwork
- Two-component number reels ensure long-term readability of the digits
- Special touch protection for increased security against unauthorised access to the code through manipulation of the mechanism
- Dark-touch function facilitates use in the dark thanks to special imprinting
- Individually configurable code

Use and application
