

GO FOR THE SQUARE!

Our hasp 110 with hinge can be used wherever you want to secure something around the corner - for example boxes or chests.

Our hinged hasp 110 is suitable for boxes, cupboards, chests, garden boxes, etc., to which a hasp must be attached at the corner. It has a hardened steel eyelet, which makes it much more difficult to hit or break open. The screws are concealed after assembly and the hinge pins are protected against being driven out. Because the following applies to every security solution: The longer it takes a thief to break into something, the better the chances that he will give up and move on.

Technologies

- Tough steel construction
- Hinge pins protected against attack
- Hardened staple
- Hidden screws

Operation and use

- Hinged hasp for corner solutions, e.g. boxes, cabinets
- Suitable for doors not closing flush, i.e. door leaf and door frame are not level
- To be used with a padlock

Variants

- Sizes: 155, 195 and 230 mm
- 155: 2 links
- 195: 3 links
- 230: 4 links
