

SLIDING LATCH

The ABUS 300 sliding bolt is an excellent choice for outdoor applications, particularly on yard gates and shed doors.

It boasts a zinc chromate coating that offers superior corrosion protection. Notably, all screws on the bolt are hidden for added security. For safeguarding against unauthorized access, we recommend using a padlock, such as the ABUS Titalium 80TI/40.

Technologies

- Corrosion-resistant
- Hardened bolt
- Hidden screws

Use and application

- To be used with a padlock

Variants

- Sizes: 3 15/16", 4 23/32", 5 33/64"

Technical data - 300/140
