KeyGarage™ 707 wall mounting

Here's what our ABUS KeyGarage 707 offers:

Space for seven keys or four credit or access cards.

Do you want to give changing groups of people such as handymen, cleaners, service staff, or vacation guests simple access to keys, code cards/access cards, or other small valuables such as USB sticks? Then our KeyGarage 707 might be a good choice. The sturdy aluminum housing protects keys and code cards from unauthorized access. All you need to do is pass on the numerical code you set to the authorized persons. If the group of people changes, the code can be changed quickly and easily. The ABUS KeyGarage™ 707 mounts on the wall. An additional convenience is the self-adhesive key hook, which can be attached as needed for fastening individual keys. It is accessed by means of a four-digit numerical code, which is set with adjustment wheels.

Technologies

- Sturdy aluminium housing
- Aluminium cover flap with number wheels
- Resettable 4-digit code
- Safety flap with sliding mechanism
- Mounts on wall with screw fittings
- Capacity for up to 7 keys or 4 plastic cards
- Exterior housing dimensions: 88 x 120 x 39 mm
- Self-adhesive keys - plastic hooks for attaching individually

Operation and use

KeyGarage™ 707 wall mounting

- For safely storing keys or small valuable objects for authorised persons
- Fast and easy access for groups of people that change frequently (e.g. workers, service, holiday guests, vehicle rental, multi-family homes)
- Accessible by setting and sharing a number code
- For wall mounting indoors and in protected outdoor areas
- Storage of a complete bunch of key now possible because of larger space and removable hook

Variants

- Colour: black / silver
