

RELIABLE SECURITY

Our Combination Lock 165 is sturdy and consists of a brass lock body.

We recommend our combination lock 165 for securing bags, suitcases, caskets, valuable boxes, lockers, cabinets, tool boxes, basement windows, switchgear, and more. The lock body is made of brass, the shackle is made of steel. The flexibility of the shackle ensures that it is convenient to set number combinations. The 165/20 and 165/30 sizes secure objects of low value or items at a low risk of theft, while the 165/40 size secures objects of medium value or items at a moderate risk of theft.

Technologies

- Brass lock body
- Steel shackle
- 165/20 and 165/30: individually resettable 3-digit code
- 165/40: individually resettable 4-digit code
- Spring loaded shackle for a better setting of the opening code

Operation and use

- 165/20 and 165/30: To secure valuables / goods of lesser value or at a low risk of theft
- 165/40: To secure valuables / goods of medium value or at an average risk of theft
- To secure bags, suitcases, jewel boxes, cash boxes, cupboards, lockers, tool boxes, basement windows, switchboards, etc.
