

Frame for 2 modules for surface mounting (stainless steel)

Art.-Nr. TVHS20140S

Seite 1 von 1

COMPLETELY MODULAR: THE VIDEO DOOR INTERCOM SYSTEM

See people in front of the door, speak to them, open the door. Modular, adaptable to any building and easy to install - with the appropriate installation frame.

Surface mounting: your ModuVis installation

When installing ModuVis modules (video module, bell button module, etc.), you have the choice between surface and flush mounting. And you can choose between a 1-fold installation frame (for 1 module), 2-fold frame and 3-fold frame (for 3 modules). This installation frame is suitable for surface mounting of 2 modules.

Totally modular, extensive expansion capability

A clear advantage: Depending on the number of flats or living areas and on-site requirements, modules are simply added to the system, e.g. information module with nameplate, bell button module or number keypad for keyless access via PIN code. If 2 modules are installed, the 2-fold installation frame is the first choice. If further modules are planned but are not yet used during the initial installation, a larger frame (3-fold) can be selected and the unused part covered with an empty module (dummy cover).

Technologies

- 2-fold frame for surface-mounted installation for the ModuVis door intercom system

Technical data - Frame for 2 modules for surface mounting (stainless steel)

Colour	Stainless steel
Depth	37 mm
Dimensions	107 x 219 x 37 mm
Height	219 mm
Length	37 mm
Material	Front: Stainless Steel / Back: Eloxiertes Aluminium
Mounting type	Surface mounted
Net weight	0.51 kg
PSTI conformity needed	No
Product group	Video
width	107 mm
