VISIBLE EVERYDAY HERO

With the Hyban 2.0 LED, you have double the safety: Once due to the robust hard shell and once due to the high visibility.

Thanks to the LED light on the front and back of the city helmet, you are visible to other road users from all sides - whether during the day or at night. The Hyban 2.0 LED is the ideal companion for everyday life and serves as reliable head protection on the way to work or out and about in the city. The helmet is also very comfortable to wear while doing so, due in part to the full ring inside the helmet. It fully encircles the head and can be adjusted via the adjustment wheel. In this way, you can determine your optimum fit. Additionally, there are air holes that prevent heat build-up under the helmet and many other practical features.

Technologies

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Reflector Sticker: for better visibility in the dark
- Bug Mesh: keeps flies and other bugs off your head without messing with the helmet's ventilation
- Integrated, rechargeable Front and Rear Lights: permanently installed on the front and rear of the helmet for greater visibility in traffic – can be charged with a Micro-USB charging cable
- IP44: protection class that certifies protection against solid foreign bodies larger than 1 mm and against splash water for electronic products such as lights
- Four different light modes (Rear and Front Light)s: Steady, Power, Pulse and Flash selectable – depending on light and weather conditions

Hyban 2.0 LED signal glacier shiny M

Seite 2 von 2

- Operating time per mode in h (min.): depending on the weather conditions and type of use, the available usage time of the light is at least 1.5 hours in continuous mode and in flashing mode at least 5 hours
- Battery charging time (light): the charging time until the battery is fully charged is approximately 3 hours
- Clip on peak: removable peak attached with pins to protect against sunlight
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Flap Divider™: strap divider for individual adjustment of the straps below the ears – with clamp fastener to fix the set position
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- Hard shell application: production process in which the outer, injection-moulded shell made of hard plastic is placed over the shock-absorbing rigid foam, thus ensuring a high level of robustness and protection

Technical data - Hyban 2.0 LED signal glacier shiny M
