PowerDome ACE moss green M

A HELMET FOR EVERY TERRAIN

GameChanger, AirBreaker, StormChaser: The “Made in Italy” ABUS helmet family is growing.

The PowerDome comes directly from the ABUS production site in Italy. In the ACE version, the ABUS Race Cap adds fashionable and practical highlights. The stylish peaked cap fits perfectly underneath the helmet and protects against blinding sunlight, rain and insects. This makes the PowerDome Ace the perfect bike helmet for anyone looking for carefree riding fun and wanting to be stylish on the road. It is very lightweight and individually adjustable to head circumference thanks to the Zoom Ace adjustment system. 10 air inlets and 7 air outlets ensure optimum air circulation in every riding situation - even in high temperatures. The sophisticated ventilation is also supplemented by a sleek air scoop on the helmet: It is modelled after the PowerDome of high-performance cars and gives the helmet its name as a functional design element. Whether on the next Gravel Tour, racing against the wind on the Tuscan coast or cycling through the city, The PowerDome ACE confidently brings the Italian lifestyle to every ride in style.

Technologies

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Stitched straps: for optimum aerodynamics, the straps are sewn and therefore do not require any strap dividers – this means they fit particularly snugly and do not flap while riding
- Floating Pad: padding on the inside of the helmet, which is clicked into place via several attachment points, making it more flexible and offering better ventilation and greater wear comfort

PowerDome ACE moss green M

- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection

Technical data - PowerDome ACE moss green M

Chin buckle	Push-in buckle
Finish	shiny
