MoDrop wildberry red M

The Do-it-All Mountain bike helmet.

The ABUS MoDrop can handle any terrain and any riding style.

The mountain bike helmet is the best companion for back country mountain rides and days riding the local trail system. Equipped with our MTB-specific adjustment system and TriVider helmet straps, this helmet offers many features that make you forget you are even wearing a helmet. The height-adjustable visor protects you from hanging branches and varying light conditions when riding downhill. In the event of a fall, it can also prevent direct impact with the face. Thanks to the helmet's two-part outer shell, the lower edge can also be protected. This also allows a lot of freedom in design, and that can really be seen in the MoDrop. The helmet combines everything that a good off-road rider needs both visually and functionally.

Technologies

- Lower edge protection: polycarbonate (PC) outer shell covers the lower edge of the helmet and protects against scratches, impacts and signs of wear and tear
- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Reflector Sticker: for better visibility in the dark
- Height-adjustable peak: the position of the peak can be adjusted thanks to locking positions to provide optimum protection from hanging branches and sunlight
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Trivider™: particularly flat divider with fixed positioning of the straps to prevent unintentional adjustment

MoDrop wildberry red M

- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection

Technical data - MoDrop wildberry red M
