## SECURITY MADE EASY

The lock body of the 83AL TITALIUM™ owes its low weight and high robustness to the special aluminium Titalium. Corrosion protection, resistance and the possibility of keying alike make the lock a flexible all-rounder.

This way you can lock your garden gate, tool shed and toolbox with just one key. Thanks to the interchangeable cylinder, the padlock can also be adapted to existing bittings. It is also available in two locking variants: In the case of automatic locking, the lock is locked by simply pressing down the lock shackle; in the case of the variant with key retaining, a key must be inserted to lock the lock. There is no such thing as bad weather

The 83AL TITALIUM™ is equipped for outdoor use with the NANO PROTECT™ coating. This makes the hardened special steel shackle more resistant to weathering.

The 83AL TITALIUM™ proves that security can be light and flexible.

---

## Technologies

- TITALIUM™ lock body – the special aluminium ensures high security with low weight
- Hardened special steel shackle with NANO PROTECT™ coating for very high corrosion protection
- 2 variants: with automatic locking by simply pressing down the shackle or with key retaining, i.e. locking only with a key (key retaining is set up by inserting the Z-bar) With automatic locking by simply pressing down the shackle or with key retaining, i.e. locking only with a key (Z-bar)
- Rekeyable: the cylinder can be exchanged and thus also adapted to existing bittings
- Shackle can be exchanged within seconds

## Operation and use

- Protection of items with a higher value and with a high risk of theft
- Suitable for use on grilles, doors, gates, cabinets, toolboxes, cellar windows, sheds, switchgear, barriers, among other things
- Extremely flexible: can be adapted to different requirements in a short time – thanks to its interchangeable cylinder and the possibility to quickly change the shackle

## Variants

- Sizes: 40, 45, 50 mm
- Colours: red, blue, yellow, green, silver, black

## Technical data - 83AL/40 silver

Depth e	19 mm
