

Key Combo™ 1650/185 black

Seite 1 von 2

NUMBER CODE AND KEY

It's your choice: the Key Combo™ 1650 can be opened with a key or a number code.

With this bike lock, you no longer have to worry about forgetting the code or losing the key. The Key Combo™ 1650 from ABUS can be opened with either version. It is therefore ideal for use by a number of different people and is perfect for bike rentals. You can freely choose the number code, and if you forget it, you can reset the original number code using the tool provided.

Technologies

- 12 mm thick, high-quality and super flexible coil cable
- Plastic coating to prevent damage to the bicycle's paintwork
- Two-component number reels guarantee life-long visibility of the digits
- The number code can be set individually
- Additional ABUS locking cylinder with easy-to-use reversible key
- The original number code can be reset using the tool provided

Operation and use

- Good protection at low theft risk
- Ideal for securing entry-level bicycles

Tips

- The Key Combo™ is a combination lock with an additional locking cylinder. If you accidentally change the code or forget it, you can still open the lock using the key
- The Key Combo™ is ideal for bicycle rentals and families
