

DELUXE SECURITY

The GRANIT Steel-0-Flex™ 1000 bicycle lock has everything you could want in a lock. Benefit from ABUS quality.

This bicycle lock from ABUS offers security and convenience in a class of its own - numerous test seals are proof of its top-quality properties. For example,

the GRANIT Steel-0-Flex™ 1000 consists of 25mm overlapping steel shells made of specially hardened steel which encase the inner steel cable and make it almost impossible to cut through the lock. The ABUS Plus cylinder also offers particularly good protection against attempts to tamper with the lock or crack the cylinder with special tools, i.e. picking.

Technologies

- 25 mm thick, overlapping steel shells protect the internal steel cable
- Plastic coating to prevent damage to the bicycle's paintwork
- The shells, body and the structural parts of the locking mechanism are made of specially hardened steel
- ABUS Plus Cylinder for extremely high protection against manipulation, e.g. picking
- Automatic cover to protect the keyhole from contamination and corrosion

Operation and use

- Great protection at high theft risk
- Ideal for securing high-value bicycles
- The longer the cable, the easier the bicycle can be locked to a fixed object

GRANIT Steel-0-Flex™ 1000/80

Tips

- The lock can be ordered keyed alike with other locks, all of which are operated using the same key or locking method
- Due to the steel shells, the Steel-0-Flex™ locks reach a significantly higher security than common cable locks, yet maintaining high flexibility (Double Protection)

Technical data - GRANIT Steel-0-Flex™ 1000/80

Locking type	key
Weight [g]	1550 g
alarm function	No
color of facets	black
design color	black
type of cylinder	Plus
