Facilo 32/150HB230 + bracket USH32

BASIC PROTECTION THANKS TO CUTTING-EDGE ABUS TECHNOLOGIES

Perhaps you need to leave your bike outside a shop, or secure it to a garden fence while you pop in and visit friends: the Facilo 32 U-Lock is the perfect solution for situations in which there is a low risk of theft or for bicycles which come from the lower end of the price scale.

High-quality materials coupled with cutting-edge safety technology: even the economy range of ABUS bike locks incorporates a high-quality cylinder featuring the company's Double Locking technology. This means that the 12mm hardened-steel shackle is locked twice within the main body, for additional protection against thieves attempting to bend it open using everyday methods. It's not surprising that U-locks are recommended by the police as the most reliable form of protection against bike theft.

Technologies

- Hardened 12 mm round shackle
- ABUS top-quality locking cylinder
- PVC casing to prevent damage to paintwork

Operation and use

- Basic protection in situations where the risk of theft is low
- Ideal for securing low-cost bicycles
- The longer the length of the shackle, the more easily it can be used to secure a bike to a fixed object
