Protection at low risk of theft

With the ABUS Cable Lock MILLENNIO 894 PHANTOM, you are well secured in situations with a low risk of theft: a 15mm-thick coil cable makes an impression. Because the cable lock is 85cm long, you can use it flexibly to lock up your bike or even tie two bikes together.

Some ABUS customers also use the Cable Lock MILLENNIO 894 PHANTOM as a second lock. They use it to secure bike accessories to their bike so they cannot be removed. Some also use one lock to secure their bike to the bike rack and the second lock to lock their child's bike to their own, for example. Because the ABUS Cable Lock MILLENNIO 894 PHANTOM weighs just 540 to 560g, it can easily be brought along as an extra.

Technologies

- 15 mm thick, high-quality steel cable
- PVC coating prevents damage to the bike's paintwork
- ABUS Extra-Classe cylinder with encoded reversible key
- Two keys are supplied in the scope of delivery

Operation and use

- Great protection where there is a low risk of theft
- Recommended for securing inexpensive bikes

Tips

- You can order this lock keyed alike with other locks which means that one key can fit multiple locks
- Cable locks are characterised by good flexibility and relatively low weight
