

TWO WAYS ARE BETTER THAN ONE

The lock-chain combination can be opened with both a key and a numeric code. Perfect for families or bicycle rentals

With this ABUS bicycle lock, the choice is yours: You can either open it with an easy-to-use reversible key or a number combination. A perfect system if several people want to use the lock-chain combination or if you have forgotten the code. The lock is also suitable for securing bicycle trailers or similar accessories which, for example, are used by multiple family members and also need to be locked with a chain.

Technologies

- 7 mm thick square chain with fabric sleeve to prevent damage to paintwork
- The chain is made of specially hardened steel
- The two-component number rollers ensure lasting visibility of the numbers
- Customisable numeric code
- Additional ABUS locking cylinder with easy-to-use reversible key
- The original numeric code can be reset using the tool provided
- Two keys are included in the scope of delivery

Operation and use

- Good protection at medium theft risk
- Recommended for securing good bicycles
- The longer the chain, the easier the bicycle can be locked to a fixed object

Tips

Key Combo™ 1610/110

Seite 2 von 2

- The Key Combo is a combination lock with an additional locking cylinder. If you accidentally change the code or forget it, you can still open the lock using the key
- The Key Combo is ideal for bicycle rentals and families
- Various keyed-alike locks are available for this lock
