

Rear Light URBAN-I 4.0/TAIPAN

Seite 1 von 1

COMPACT. VISIBLE. RELIABLE.

Easy to fit, easily visible: this magnetic Rear Light for the Taipan and Urban-I 4.0 offers you exactly what you need for everyday commuting.

The stylish light strip is attached to the rear of the helmet using magnets and clicked into place on the right - for secure attachment, even on bumpy roads. Two light modes - Steady or Flash - can be flexibly selected depending on the environment or battery level. The 180° light angle of the Rear Light ensures better visibility and passive safety in the dark, at dusk or in bad weather. With an operating time of up to 22 hours in Flash mode, you'll be visible for a long time. The battery is fully recharged in approx. 1 hour via USB-C. Robust, weatherproof and easy to operate - ideal for everyday use.

Technologies

- Magnetic Rear Light with USB-C charging connection: easily detachable and conveniently rechargeable for maximum flexibility
- 180° visibility: perfect for better visibility in the dark, at dusk and in bad weather
- Robust and weatherproof (IP44-certified): protected against dust and splash water, ideal for all weather conditions
- Various light modes: Steady or Flash selectable – depending on light conditions or to save battery capacity
- Operating time per mode: depending on the weather conditions, type of use and light mode, the available usage time of the light is at least 4 hours in Steady mode and at least 22 hours in Flash mode
- Battery charging time of Rear Light: the charging time until the battery is fully charged is approx. 1 hour
