Smiley 3.0 FL.ACE LED pure pistachio M

SMILEY WITH MAGNETIC BUCKLE

There are many reasons in favour of our best-selling SMILEY 3.0 kids helmet. The FL.ACE LED variant adds a particularly practical feature to these good reasons: the magnetic buckle on the chin.

Many parents and kids are familiar with the situation: sometimes the chin buckle is a little tricky to use. It can even happen that the skin gets pinched. The Fidlock magnetic buckle, on the other hand, makes putting on the helmet child's play - and pinching the skin is also a thing of the past. When the kids are whizzing off to nursery on their balance bikes, learning to ride a bike, riding in a bike seat or mastering their first bike rides, their heads need special protection. However, for them to enjoy wearing their new kids helmet, it needs to do more than just protect them. Advantages of a favourite helmet Safety or fun? The SMILEY 3.0 for young children shows that both are possible. The variety of designs with different colours and motifs ensures that every child can find their favourite helmet. The child-friendly design, the precisely adjustable fit and the pigtail opening for noticeable wearing comfort as well as the magnetic buckle for easy handling make this kids helmet a bike helmet that children love to wear. Safety when riding

In addition, the SMILEY 3.0 FL.ACE LED offers the usual safety features so that children are well equipped for their first attempts at riding and the great adventures of a bike tour:

ulliReflective stickers and rechargeable rear light ensure better visibility/liliDeep fit in the neck and temple area offers additional protection/liliThe child-friendly helmet shape with flattened rear allows a natural head position when leaning against the back of a child seat or bike trailer with the rear light removed/liliBug mesh in the front air openings/li/ul

Technologies

- Magnetic buckle: the straps are fitted with a high-quality, magnetic FIDLOCK buckle to enable the chin buckle to be opened with one hand, even when wearing gloves
- Lower edge protection: polycarbonate (PC) outer shell covers the lower edge of the helmet and protects against scratches, impacts and signs of wear and tear
- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Child-friendly helmet shape: helmet flattened at rear for a natural head position – more comfort when leaning back in a bike trailer or child seat, less neck strain
- Reflector Sticker: for better visibility in the dark
- Bug Mesh: keeps flies and other bugs off your head without messing with the helmet's ventilation
- Rechargeable, clip-on Rear Light: attaches to the back of the helmet and ensures greater visibility – can be charged with a Micro-USB charging cable
- Three different light modes (Rear Light): Steady for continuously shining light, Power for even brighter, continuously shining light and Flash for brightly flashing light at short intervals
- Operating time per mode in h (min.): depending on the weather conditions and type of use, the available usage time of the light is at least 2.5 hours in continuous mode and in flashing mode at least 6 hours
- Battery charging time (light): the charging time until the battery is fully charged is approximately 1 hour
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Flap Divider™: strap divider for individual adjustment of the straps below the ears – with clamp fastener to fix the set position
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection
