Youn-I 3.0 ACE powder beige M

YOU AND I - EVERY GENERATION

Modern design, comfortable to wear and equipped with a bright rear light: the Youn-I 3.0 ACE appeals to teenagers, young adults and adults - whether on the way to school, university, office or across the city centre.

With its clear shape, wide range of colours and additional peak, the helmet has an urban look that is both sporty and mature. The Youn-I 3.0 ACE suits a variety of styles - from the daily commute to spontaneously meeting up with friends in the city.

In terms of wearing comfort, the helmet impresses with its individually adjustable fit, which is also suitable for narrower head shapes. The precise adjustment system, soft comfort padding and good ventilation ensure a comfortable fit. The magnetic chin buckle is quick and easy to use in everyday life.

A reflective sticker and the bright rear light enhance visibility in road traffic. The light is easy to operate using the rubberised button; the external charging port allows the light to remain on the helmet or optionally be removed - simply connect a USB-C cable and fully charge in around an hour.

The Youn-I 3.0 ACE is an uncomplicated companion for every day - stylish, comfortable and ready for the city.

Technologies

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Reflector Sticker: for better visibility in the dark

Youn-I 3.0 ACE powder beige M

- Bug Mesh: keeps flies and other bugs off your head without messing with the helmet's ventilation
- Rechargeable, clip-on rear light: attaches to the back of the helmet and ensures greater visibility – can be charged using a USB-C charging cable
- IP44: protection class that certifies protection against solid foreign bodies larger than 1 mm and against splash water for electronic products such as lights
- Four different light modes (Rear Light): Steady, Power, Pulse and Flash selectable – corresponding to light and weather conditions
- Operating time per mode in h (min.): depending on the weather conditions and type of use, the available usage time of the light is at least 4 hours in continuous mode and in flashing mode at least 29 hours
- Battery charging time (light): the charging time until the battery is fully charged is approximately 1.2 hours
- Clip on peak: removable peak attached with pins to protect against sunlight
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Flap Divider™: strap divider for individual adjustment of the straps below the ears – with clamp fastener to fix the set position
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Magnetic buckle: the straps are fitted with a high-quality, magnetic FIDLOCK buckle to enable the chin buckle to be opened with one hand, even when wearing gloves
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection
