

EXTREMELY LONG - EXTREMELY SECURE

Just like quad bikes and all-terrain vehicles (ATVs), snowmobiles need to be properly secured against unauthorised use or even theft.

In addition to various lock-chain combinations, our security experts have developed a U-lock solution that is specially adapted to the needs of snowmobile riders.

The 37/55 Snowmobile U-Lock offers highly secure protection against unauthorised use or even theft by enclosing the crawler track with the lock bracket. In doing so, the ABUS-Plus locking system protects against attack through ingenious lock-breaking methods.

Technologies

- 11 mm specially hardened lock bracket with double-locking mechanism
- Extremely long U-lock
- ABUS-Plus locking system against ingenious lock-breaking methods

Operation and use

- Protection of snowmobiles against a high risk of theft from brute force and ingenious lock-breaking methods

Tips

- You can order this lock keyed-alike with other locks, allowing you to use a single key in conjunction with multiple locks/locking mechanisms
- Now with an additional neoprene bag to protect against snow
