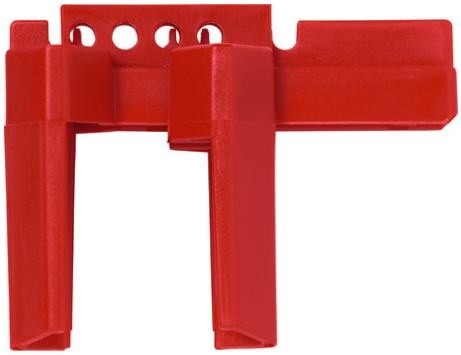
Ball Valve Lockout V442



VERSATILE AND FLEXIBLE

Two sizes of ABUS plastic ball valve lockouts cover almost all hand levers.

For more safety in maintenance: Our ball valve lockouts secure the valve in the off position. By hooking in a padlock, the lock is fixed on the valve handle until all maintenance work has been completed.

Technologies

- High-quality polypropylene; long-lasting, robust and non-conductive
- Two sizes: Handles for ball valves from ½" to 8"
- Well-positioned padlock holes for better grip on the valve

Operation and use

- To block most common ball valves

Variants

- V442: Small
- V448: Big
