E245

THE MOTOR PROTECTION SWITCH LOCKOUT DEVICE E245 IS ONLY AVAILABLE by ABUS

It is the first product of its kind on the market that can be used on all motor protection switches mounted at a height of 45 millimeters.

And it makes no difference which manufacturer the circuit breaker comes from. The E245 is attached to the motor protection switch. When the outer rotary handle is turned, it creates a clamp that is held in place by padlock. Then it is securely attached to the housing and prevents access to the motor protection switch.

Technical data - E245

Depth	44 mm
Length	57 mm
Locking Points	1
Shackle Diameter	6,5 mm
Weight [g]	22 g
Width	45 mm
colour	red
EAN	4003318894817
