

TITALIUM™ 64TI

Strong, Lightweight, Innovative

TITALIUM™ is a special aluminium alloy that uniquely combines a high level of strength with lightness just like in the aircraft or automobile industry. The contemporary material implementation is reflected in the design of the products: TITALIUM™ series padlocks all feature an impressive stainless steel finish.

Key Features

- Solid lock body made from TITALIUM™ aluminium alloy: higher security, less weight
- Hardened steel shackle with NANO PROTECT™ coating for superior corrosion resistance
- Paracentric keyway for increased protection against manipulation

Item	Shackle Height	# Pins	Body Material	Shackle Material	Shelf Pk Qty	Weight kg
