

Gate Valve Lockout

Protect Your Employees

The valve lockout is available in different sizes and can therefore be used on many different kinds of valves. Due to the predetermined breaking point at the top of the device, an additional opening can be created that allows for the lockout device to be used on valves with a thread.

Key Features

- Made from high-quality polypropylene: long-lasting and non-conductive
- Five sizes: Fits gate valves from 25mm to 330mm
- Holds 1 padlock with up to 9mm shackle diameter
- Predetermined breaking point at the top for threaded valves
- Stickers in various languages included

Areas of Application

- Block access to gate valves during maintenance
