

Lockout Hasps

Ideal for Group Lockout

To temporarily block access to switchboards, ABUS offers different varieties of lockout hasps. With these, main power switches and thus the energy sources can easily be locked out during maintenance or service work. This is an easy and effective way to avoid accidental restarting of the machine.

Key Features

- Holds up to 6 padlocks
- Available with or without pry-resistant interlocking tabs for added security
- High-quality materials for different areas of application: recycled steel, spark-resistant aluminium or non-conductive plastic
- Steel and aluminium: 1"(25mm) or 1½"(38mm) closed hole available

Areas of Application

- Lockout power switches during maintenance.
- Ideal for lockout applications where more than one safety padlock has to be attached.

Item	Opening Diameter	#Lock Holes	Material	Shelf Pk Qty	Weight kg
701	25mm	6	Recycled Steel	12	0.094
702	38mm	6	Recycled Steel	12	0.105
801	25mm	6	Recycled Steel	12	0.101
802	38mm	6	Recycled Steel	12	0.102
