

Power Plug Lockout

Ensuring Your Safety

In order to carry out maintenance work on machinery, some plugs have to be disconnected to interrupt the power flow. To make sure these plugs are not plugged in again by mistake, they can be locked inside this lockout device. The power plug lockout is available in two different sizes.

Key Features

- Made from high-quality polypropylene: long-lasting, robust and non-conductive
- 2 Sizes: For standard plugs or high-voltage plugs
- Cable tunnel on both sides to secure plug connections
- Warning stickers in different languages included
- Small version holds up to 2 padlocks; large version holds up to 4 padlocks with a shackle diameter up to 9mm

Areas of Application

- Block access to power plugs during maintenance

Item	#Lock Holes	Warning Label Languages	Shelf Pk Qty	Weight kg
