

Safety Redbox™

Handy and Convenient

The Safety Redbox™ convinces through its handiness. Due to its low weight, it can easily be carried around. In addition, the Safety Redbox™ comes with a wall bracket; the hinges that hold the box in place are on the back. This way it can also be used stationary and each machine can be assigned a single box. Employees will have no difficulties finding the right box for the right machine.

Key Features

- Safety where you want it, when you need it: portable, convenient lockout box
- High level of stability in spite of low weight
- Ergonomic and space-saving fold-away handle
- Inside is exposed to light from all sides for better visibility of contents
- Lid features innovative and secure locking mechanism
- Patented lockable wall bracket, also facilitates storing of padlocks

Areas of Application

- Lockout a large range of machinery or plants with many different access points and maintenance being carried out by a big number of people.
