

Wall Switch Lockout

Easy and Convenient

The device is clear so that workers can see which position the switch currently is in. The unique sliding mechanism uses no hinges which makes the device more robust and less likely to break accidentally.

Key Features

- Made from high-quality polycarbonate: longlasting and robust
- Easy installation: Remove the screws from the wall switch plate and use them to mount the device onto the plate
- Sliding mechanism makes the device very easy to use
- Offers extra durability with hinge-less design
- Holds 1 padlock with up to 8mm shackle diameter

Areas of Application

- Block access to wall switches during maintenance
