Wavy Line pro

Reversible key system with a wavy code line

MADE IN GERMANY

System Wavy Line pro High security level and comfort

Cylinder illustration with optional drill protection

Authorization monitoring in three dimensions

- The first row of pins is activated by a 6-fold coded wavy line
- Additional lateral dimples in the second row of pins
- Blocking ball with coded rib

Coded rib with blocking ball

- Blocking ball provides resistance to cylinder manipulation (e.g. picking)
- A coded rib on the key is used to bypass the blocking ball
- The ball blocks the cylinder as soon as it will be manipulated with a key without a coded rib

System benefits

- Up to 10 active locking elements combined with the blocking ball offer a high level of key security
- Reversible key system ensures easy handling
- Upright key insertion
- Solid and stylish key design
- 14 mm core diameter
- Patented locking technique provides legal protection against copying
- Profile cylinders are manufactured according to DIN EN 1303 and DIN 18252, i.e. latest state-of-the-art security.

Security Tech Germany

International product range

Cylinders in America are different to cylinders in Germany and the locking systems in Asia are different to those in Europe. Our product range comprises many samples of "Made in Germany" cylinders that are specifically designed for use in multinational markets.

Special features for your individual locking system

Drill and pull protection

Different options are available

Special numbering

For the individual marking of the cylinder and key

Electronic locking system

Compatible with electronic locking systems of the ABUS group

Emergency feature

Cylinder can be operated from one side even if there is a key inserted in the other side.

Free-wheel cam

Panic feature where a free-wheeling cam is required when keys are not inserted.

Salt-water resistant cylinders

Corrosion resistance according to DIN 50 021-SS

Further special equipments

Of course, other features are also available.

Please contact us.

Security Tech Germany

Security you can trust

The marine museum OZEANEUM in Stralsund in Northern Germany is protected by a reversible key system of ABUS Pfaffenhain.
