Locks

Double locking

Dual locking of the shackle in the lock body

Pocket size

Lock in small format

XL size

Lock in large format

Manual locking

Active locking with a key required

Automatic locking

No active locking with a key required

Robust webbing

High-tech mesh, durable and hydrophobic

Combo

Combination code is factory set

Individual code

Combination code can be freely selected

Flexible loop

Two infinitely adjustable loops allow best possible use of the locking range

Protected against battery angle grinders

Wolfram-Carbid reinforced to protect against attacks with battery angle grinders

Rechargeable

Rechargeable battery

Battery

Including battery

Bordo 8-bars

Folding lock with 8 bars offers even more flexibility due to greater length

SmartX

Innovative locking system, controlled via smartphone

XPlus

Picking-resistant disc cylinder „XPlus“

Plus

Picking-resistant disc cylinder „Plus“

Lightweight

Lightweight lock

Alarm

Lock with 100 dB alarm function

One Key Option

Multiple locks can be produced keyed alike and thus operated with one key

ABUS - Made in Germany

When August Bremicker and his sons founded ABUS in 1924, they had a lot of experience with craftsmanship – and a clear vision: They wanted to create products that protected human life and property. It was a far-sighted corporate guideline – paired with an expectation for quality right from the start. It was the start of a continuous success story. The ABUS brand became a synonym for security.

High-quality materials

To be able to offer consistently high quality and security, we use high-quality materials at every price level. Complex hardening processes guarantee the best attack resistance in our materials. Our internal quality management processes all materials before and during the production process and ensures that every product has the high quality you expect.

The key to success

At ABUS, we produce and build many of our machines ourselves and all the tools we use in the production of our security products in-house. That bundles know-how, guarantees jobs, and strengthens identification. Our own engineering and toolmaking department concentrates exclusively on the development of bicycle and motorcycle locks.

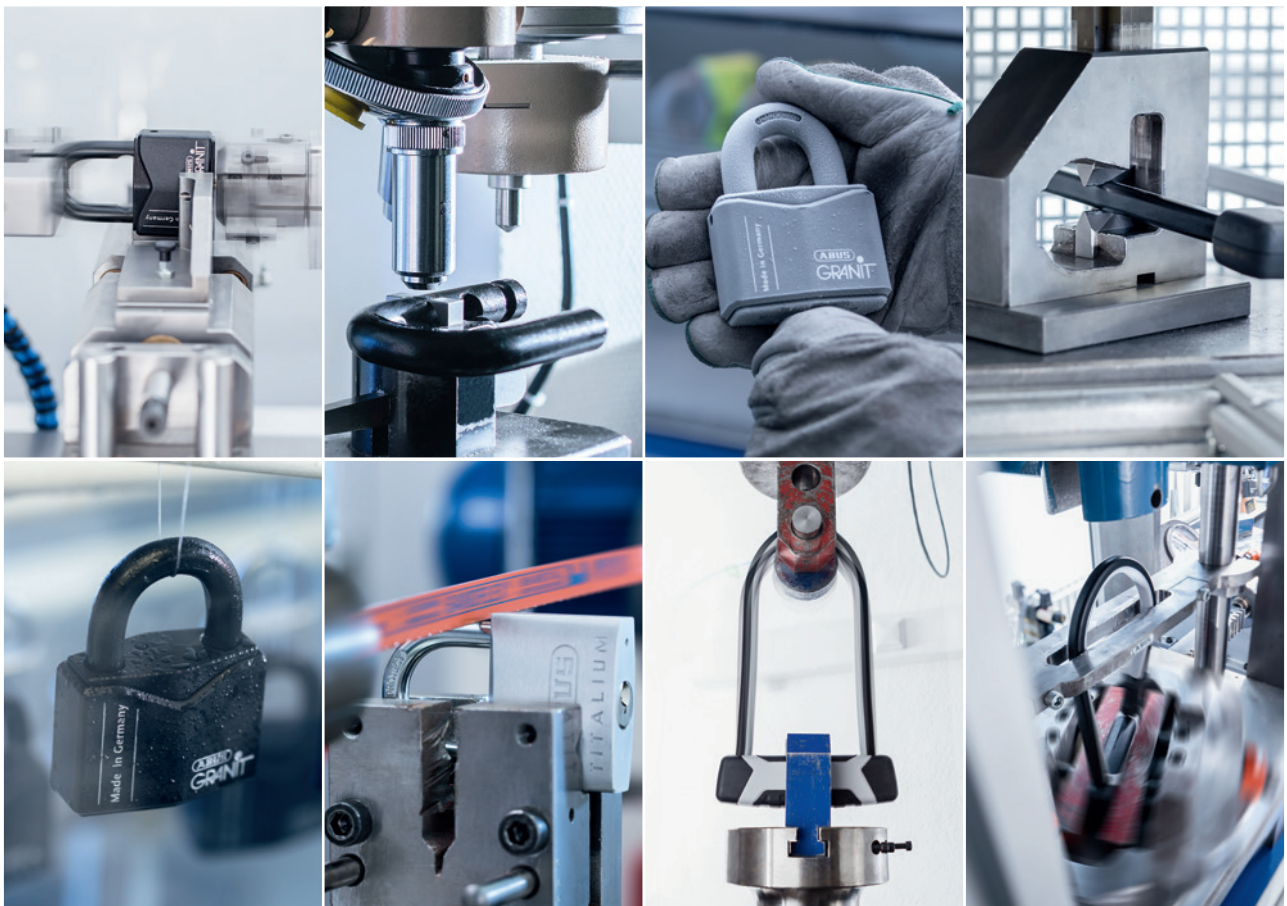

This ensures that we meet the tough requirements you place on your bicycle or motorcycle lock every day.

Ensuring continuity

In our own ABUS test laboratory, we routinely carry out tests and attacks on our products to ensure that we offer consistently high quality.

Among others we make sure our locks are resistant to:

- Ice spray attacks and freezing conditions thanks to a -40°C chamber
- Twisting, pulling, hammering and sawing attacks with help of our manual or mechanical tests
- Rust by simulating highly corrosive weather conditions

Approvals

ABUS locks are tested and acknowledged by independent, neutral test institutes in several European countries.

The following test seals confirm the extraordinary security of the ABUS 2-Wheel locks:

Svenska Stöldskyddsföreningen
Stockholm, Sweden

Norges Forsikringsforbund
Oslo, Norway

Finanssiala
Helsinki, Finland

ART ANWB, RAI, TASS
Helmond, Netherlands

ABUS Seal for Ice Spray Test
Volmarstein, Germany

Test Seal VdS
Cologne, Germany

Key service

The ABUS key service allows you to order new keys for existing locks.

Just select the required blank, enter the desired coding and the key will be delivered within no time.

If no key number is available, please send us the remaining pattern key. We'll produce a replica of the key.

One Key Simple. Individual.

Have custom bike locks made - operate everything with just one key!

Here's how it works

A lock for connecting, a frame lock, a padlock, and even a battery lock for e-bikes - if you want to secure your bike properly, you need a lot of locks. That is why we at ABUS, with the One Key system, offer the ability to produce locks for your customers in such a way that they can all be operated with one key. No mess, no looking for keys.

1. Read key code from code card

2. Choose suitable products at your retailer

How One Key works

It's quite simple. Each ABUS lock has an individual key code with which spare keys or matching "keyed alike" locks can be made - even years after purchase. All that matters is that the locks from ABUS have the same type of cylinder installed.

3. 1 week to manufacture your custom product

4. Pick up at retailer or ship to home

Familiar face – New design

As a manufacturer of cylinders and bicycle locks, ABUS has the unique opportunity on the market to manufacture custom locks so that they can all be operated with one key – or “keyed alike”. It is important that the locks be compatible with each other for this purpose.

So far we have marked our products and campaigns with these icons:

With YourPlus™, we have combined all locks that have a Plus cylinder.

This icon currently indicates that this lock can be keyed alike.

From now on, we're bringing everything together under One Key – a clear promise for more convenience.

The ABUS level system

The ABUS level system

Clear, consistent, simple.

The packaging of a security product influences the buying decision of your customers!

As part of our packaging concept, which is characterised by a clear, steady and modern presentation of our product range, you and your customers also benefit from a level system, which provides information on the security ranking of our products.

The ABUS level system is transparent and simplified system that represents exclusively the level of security of the locks. The level system – pictured as a speedometer – reaches level 15 for bicycle locks and level 20 for motorbike locks.

With the level system, a better understanding for the customer is achieved and conveys, already at the first glance, one of the key considerations when buying a security product: the level of security.

The result: a modern appearance at the point of sale, which promotes your sale actively!

Maximum Security
Level: 10-20

Extra Security
Level: 5-9

Standard Security
Level: 1-4

Alarm

More and more ABUS locks are equipped with an alarm of approx. 100 dB to rout out bicycle thieves effectively. The addition „Alarm“ on the level system shows that a lock has this feature.

Standard Security
with Alarm

GRANIT™

GRANIT™ Tough Security.

MADE IN
GERMANY

Best security has a name: Granit.

The Granit locks are known to be made with the best materials, the best technology and many patents.

- 1 ABUS XPlus cylinder: The ultimate resistance against intelligent opening methods e.g. picking
- 2 Power Cell Technology makes pulling and breaking forces spread through the whole lock, using the resistance of the complete lock
- 3 Square shackles force the thief to cut the shackle twice as it can not be twisted open
- 4 The parabolic shaped shackle generates at least two contact points with every object being used to pull on the shackle – this reduces the breaking force coming on one point
- 5 A special steel alloy and a particular hardening process make the shackle hard, resisting sawing attacks, but still flexible enough to withstand torsion attacks
- 6 Power Link Technology means direct locking of the chain end link into the highly resistant locking mechanism
- 7 High quality chain produced according to special ABUS specifications

ABUS Motorbike Lock Guide

Discover the ABUS lock configurator

Motorbike Guide: A special service.

The ABUS “Motorbike Guide” gives you the interactive possibility to look for the lock that fits your bike.

All information are without obligation and subject to technical modifications to the motorbikes and/or the locks. The information is a recommendation only!

ABUS Brake Disc Lock Finder

Find the right brake disc lock – quick and easy

ABUS has a gadget for all motorbike- and scooter owners, which helps to find the perfect brake disc lock. This finder includes templates with the measurements of the bolts of all ABUS brake disc lock and reveals quick and easy, whether a brake disc lock fits a two-wheeler or not.

TIP:

Your customers can easily find out at home which ABUS brake disc lock fits their two-wheelers: Just go to www.abus.com to the favored lock, click on „Downloads“, download the template, print, cut out and see if the lock fits the disc!

3D Position Detection

TECHNICAL DATA

- 12 mm strong loop chain with fabric sleeve to prevent damage to the motorbike's paintwork
- The chain, the 16 mm bolt, the lock body as well as supporting elements of the locking mechanism are made of special hardened steel
- Alarm function on basis of the ABUS 3D detection system that means, that every movement is detected
- Alarm at a volume of at least 100 dB for 15 seconds, followed by automatic reactivation
- Lock can be transported in locked condition without activated detection system thanks to automatic brake disc recognition system
- Different acoustic signals inform about battery- and activation status
- ABUS XPlus cylinder for highest protection against manipulations, e.g. picking
- Two keys are supplied with the lock
- ABUS Code Card for additional or replacement keys
- One CR2 Battery for the alarm function is included

GRANIT™ DETECTO XPLUS 8077 2.0 YELLOW 12KS BLACK LOOP

SECURITY LEVEL

FEATURES

TECHNICAL DATA

- 12 mm strong loop chain with fabric sleeve to prevent damage to the motorbike's paintwork
- The chain, the 13.5 mm locking bolt, housing and structural parts of the locking mechanism are made of specially hardened steel
- 3D Position Detection – recognises vibrations and the smallest movements in all three dimensions and triggers the alarm function
- If the lock is moved, an intelligent pre-alarm with seven signal tones sounds first – if the lock continues to be attacked or moved, the full alarm, which is at least 100 dB loud, then sounds for 15 seconds
- After the pre-alarm or full alarm, the lock is automatically armed
- Thanks to the automatic brake disc detection system, the lock can be transported when closed without activating the alarm function
- Acoustic and visual signals (multi-coloured LEDs) indicate the battery and activity status
- ABUS XPlus cylinder for extremely high protection against tampering, e.g. picking
- Two keys included
- Two AAA standard batteries included in the scope of delivery

TECHNICAL DATA

- 6 mm thick square chain
- Loop ring diameter 60 mm
- Double-loop function: one loop secures components such as the front or rear wheel, the other secures the bike frame
- Durable and highly flexible IvyTex synthetic fibre coating protects the paintwork from abrasion or scratches
- Individually and infinitely adjustable length thanks to sliding lock body
- Quick locking without a key thanks to automatic locking: simply snap the bolt into the lock body
- Easy to transport

Alarm Brake Disc Locks

TECHNICAL DATA

- 13.5 mm locking bolt made of specially hardened steel
- Lock can be opened and locked without a key – keyless function based on proven ABUS SmartX™ Bluetooth® technology
- USB-C port
- Easy operation via the ABUS One app – for iOS™ and Android™
- Motorbike's last locking location stored in app
- Alarm function with at least 100 dB for 15 seconds, then automatic re-arming
- 3D motion sensor detects the smallest of movements and triggers the alarm
- The bolt, housing and structural parts of the locking mechanism are made of specially hardened steel
- Thanks to its automatic brake disc detection system, the lock can be transported closed without the alarm being activated
- Acoustic and visual signals (multi-coloured LED) indicate the battery and activity status

787 KEYGARAGE™ ONE

TECHNOLOGIE

TECHNICAL DATA

- Secure storage of keys and small valuables in a sturdy metal housing
- Up to 20 keys, up to 3 car keys or 30 plastic cards fit in the key box compartment
- There are 2 hooks for hanging keys or key rings
- Smart operation and management of the KEYGARAGE with the free HomeTec Pro Bluetooth or ABUS One apps
- Overview of key box use in the app's clear event log
- Automatic locking after the compartment is closed
- Illuminated keypad for optimal input of the numerical code in the dark
- LED for status indication (unlocked, locked, incorrect PIN and low battery)
- Battery compartment for 2 x AA batteries, accessible from the outside
- For secure storage of keys or small valuable objects for authorised persons
- Quick and easy access for frequently changing groups of people (e.g. tradespeople, service staff, holiday guests, vehicle hire customers, care service)
- Share access via an individual 6-digit numeric code or by invitation to a smartphone
- For wall mounting indoors and in protected outdoor areas
- Storage of whole key rings possible thanks to the large internal compartment
- Real-time remote access to all functions such as unlocking, locking, viewing event logs and managing access permissions via the separately available BRIDGE One.

797 KEYGARAGE™ ONE

TECHNOLOGY

TECHNICAL DATA

- Sturdy metal housing provides secure storage space for keys and valuables
- Up to 20 keys, up to 3 car keys or 30 plastic cards fit in the key box compartment
- There are 2 hooks for hanging keys or key rings
- Smart operation and management of the KEYGARAGE with the free HomeTec Pro Bluetooth or ABUS One apps
- Overview of key box use in the app's clear event log
- Automatic locking after the compartment is closed
- Illuminated keypad for convenient input of the numeric code in the dark
- LED for status indication (unlocked, locked, incorrect PIN and low battery)
- Battery compartment for 2 x AA batteries, accessible from the outside
- For secure storage of keys or small valuable objects for authorised persons
- Quick and easy access for frequently changing groups of people (e.g. tradespeople, service staff, holiday guests, vehicle hire customers, care service)
- Share access via an individual six-digit numeric code or by invitation to a smartphone
- Mounting with shackle for flexible and temporary use indoors or in protected outdoor areas (e.g. on door knobs, railings or handles)
- Storage of whole key rings possible thanks to the large internal compartment
- Real-time remote access to all functions such as unlocking, locking, viewing event logs and managing access permissions via the separately available BRIDGE One.

787 BIG LED KEYGARAGE™

TECHNOLOGY

TECHNICAL DATA

- Solid metal housing
- Locking cover made of zinc die-cast
- 4-digit individually settable code
- Illuminated dials for a better legibility in dark conditions
- LEDs light up ca. 30 seconds
- Customary coin cell battery (CR2032) can be easily replaced, durability of battery when used 1x per day approximately 2 years
- Protective cover with sliding mechanism
- For wall mounting with screws
- Can hold up to 38 keys or 30 code cards
- Easily removable clip-in hooks guarantee consumer's comfort
- Outer dimensions of housing: 84 x 120 x 42 (787 LED) / 84 x 120 x 62 (787 BIG LED)
- Ideal protected storage of keys and other valuables for authorised persons
- Quick and easy access for frequently changing groups of persons (craftsmen, service, holiday guests, apartment buildings, car rentals)
- Defining access by setting and passing on the code
- For wall mounting indoors and in protected outdoor areas

787 BIG KEYGARAGE™

TECHNOLOGY

TECHNICAL DATA

- Very large solid metal housing and extra large storage compartment
- Locking cover made from zinc die-cast
- Individually resettable code (4-digit)
- Protective cover with sliding mechanism
- For wall mounting with screws
- Holds up to 30 cards or 38 keys
- Easily removable clip-in hooks guarantee consumer's comfort
- Flat inner mechanism makes a larger storage space possible
- Outer dimensions of housing: 84 x 120 x 62
- Ideal protected storage of keys and other valuables for authorised persons
- Quick and easy access for frequently changing groups of persons (craftsmen, service, holiday guests, apartment buildings, car rentals)
- Defining access by setting and passing on the code
- For wall fixing indoors and in protected outdoor areas
- Storage of a complete bunch of key now possible because of larger space and removable hook

Twin Chain

WCH90 + ACH 9KS/130

TECHNICAL DATA

- Wall anchor with integrated chain
- Hardened steel housing for high resistance
- The wall anchor is firmly anchored in the wall with high-security special dowels and thus offers an extremely high level of theft protection
- The safety dowels are included in the scope of delivery
- Only suitable for wall mounting
- The chain and the housing are made of specially hardened steel
- Textile coating to protect against paint damage
- The chains are available in different lengths
- ABUS XPlus cylinder for the greatest protection against manipulation, such as picking

TECHNICAL DATA

- 5.5 mm thick rods, with extra-soft 2-component coating
- Easy operation via the ABUS One app (previously SmartX) – for iOS and Android
- Bike lock can be opened and locked without a key – keyless function based on proven ABUS SmartX™ Bluetooth® technology
- Alarm function with min. 100 dB for 15 seconds, then automatic re-arming
- 3D position detection – detects vibrations and the smallest of movements in all three dimensions and triggers an alarm
- Smart alarm – the lock only emits a short warning tone in the event of minor and brief vibrations, e.g. if a football bounces nearby
- USB-C port
- Storage of the bike's last parking location
- LED light indicates battery and charging status
- RC variant can be operated via included remote control (for all other variants, the remote control is available separately)
- Incl. holder (SH)

DISKUS® 24

TECHNOLOGY

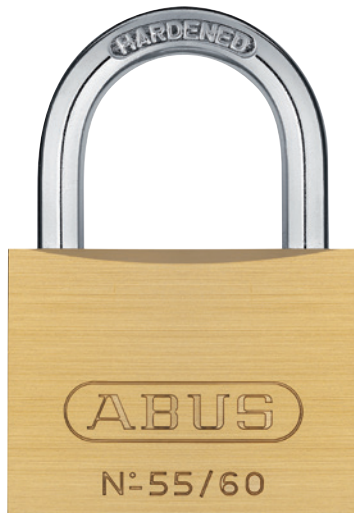

- Round shape plus narrow shackle opening makes it difficult to access with heavy-duty tools
- Shackle made from hardened alloy steel
- Ideally used with ABUS Diskus® Hasp 140: virtually impossible to attack shackle
- Additional protection against sawing
- Sophisticated welded seam for highest break resistance
- Precision pin tumbler cylinder
- Made in Germany
- 2 keys
- To secure valuables/goods at a medium risk of theft

MESSING 55

TECHNOLOGY

- Body made of solid brass
- Inner components made of non-corrosive materials
- Shackle made from hardened steel
- Precision pin tumbler cylinder
- Self-locking: locking without key by pushing down the shackle
- Basic protection
- Cobra loop cables, doors, gates, cabinets, lockers, toolboxes, cellar windows, sheds, switchgears, barriers

BRACKET SH59

TECHNICAL DATA

- Transport of U-shackle lock Granit Extreme 59
- Mounting on tubes with round diameter of 12 - 17 mm or with bolt hole of 8 - 10 mm diameter
- Bolts included
- Very quick mounting

Ref. No.	4003318	Weight g	Box Qty
SH59	23763 8	420	2

BRACKET SH58

TECHNICAL DATA

- Transport of U-shackle lock Granit Power 58
- Mounting on tubes with round diameter of 12 - 17 mm or with bolt hole of 8 - 10 mm diameter
- Bolts included
- Very quick mounting

Ref. No.	4003318	Weight g	Box Qty
SH58	05810 3	400	3

BRACKET SH68/69

TECHNICAL DATA

- Designed for transport of Victory 68 disc lock
- Mounting on tubes with round (two tubes needed) diameter of 12 - 28 mm or square diameter of 12 - 18 mm
- Two sets of bolts with different lengths included
- Metal bracket for mounting with rubber inlays for best hold and rattle free transport of the lock
- Very quick mounting

Ref. No.	4003318	Weight g	Box Qty
SH68/69	33581 5	280	1

BRACKET SH37

TECHNICAL DATA

- Bracket for brake disc lock 37/60HB70 (00903 7)
- Transport of brake disc lock 37/60HB70
- Metal bracket for mounting with rubber inlays for best hold and rattle free transport of the lock
- Very quick mounting

Ref. No.	4003318	Weight g	Box Qty
SH37	12372 6	360	1

BRACKET SH77

TECHNICAL DATA

- Transport of brake disc lock Granit Sledg 77
- Mounting on tubes with round (two tubes needed) diameter of 12 - 28 mm or square diameter of 12 - 18 mm
- Two sets of bolts with different lengths included
- Attachment via plastic bracket and metal clamp with rubberised inner surface
- Very quick mounting

Ref. No.	4003318	Weight g	Box Qty
SH77	54648 8	300	6

BRACKET SH8077

TECHNICAL DATA

- For transporting the GRANIT™ Detecto XPlus 8077 and GRANIT™ Detecto XPlus 8077 2.0 disc brake locks
- Attachment to round frame tubes with diameters of 12-28 mm or square frame tubes with diameters of 12-18 mm (two frame tubes required in each case)
- Two bolts sets of different lengths included in the scope of delivery
- Attachment via plastic bracket and metal clamp with rubberised inner surface
- In addition to the bolt fastening, the lock bracket is fixed to the frame tube with a robust cable tie with metal core – for high stability even under high loads
