

# Wireless Retrofit Kit for FTS 96 brown

Art.-Nr. FU8402B

Seite 1 von 2

At first glance, the purely mechanical FTS 96 window protection system can not be distinguished from the electronic FTS 96 E wireless window protection system. With the wireless retrofit kit, you can prepare the mechanical FTS 96 window protection system for use with the Secvest 2WAY. The wireless upgrade kit includes: A new rotary knob, new protective cover, lock and lock box, as well as batteries, and an electronics attachment. Previously installed FTS 96 window protection systems can be upgraded at any time.

## Technologies

- Combines mechanical with electronic security technology
- Converts existing FTS 96 into wireless detectors for the Secvest 2WAY
- Easy upgrade
- Optional connection of a passive glass break detector

## Technical data - Wireless Retrofit Kit for FTS 96 brown

|                                    |                                       |
|------------------------------------|---------------------------------------|
| Battery - max. battery life        | 2 y                                   |
| Battery - type                     | 2 x 1.5 V LR03 AAA alkaline batteries |
| Connections                        | Clamping terminal                     |
| DC voltage supply                  | 3 V                                   |
| Dimensions                         | (WxHxD) 78x125x55 mm                  |
| Environmental class                | II                                    |
| Height                             | 125 mm                                |
| Housing material                   | ABS                                   |
| Installation location              | Windows and doors                     |
| Length                             | 55 mm                                 |
| Max. operating temperature         | 55 °C                                 |
| Max. receiving range (free field)  | 100 m                                 |
| Max. transmission range (building) | 30 m                                  |
| Min. operating temperature         | -10 °C                                |
| Modulation                         | FM                                    |

## Technical data - Wireless Retrofit Kit for FTS 96 brown

|                     |  |
|---------------------|--|
| Radio frequency     | 868,6625 MHz                               |
| Radio power         | 10 mW                                      |
| Sabotage monitoring | Yes  |
| Sensor type         | Reed contact, magnetic field sensor system |
| Type of detection   | Magnetic field measurement                 |
| Voltage monitoring  | Yes  |
| Width               | 78 mm                                      |
