

Secvest 2WAY FG 350 E wireless window handle, brown

Art.-Nr. FU8430B

Seite 1 von 2

This wireless window handle is a discreet and attractive security solution for your windows. The alarm center is notified on the condition of the window and then determines whether the window is open or closed. The window handle can thus reliably trigger an alarm in the event of an attempted break-in. Best of all, each standard window handle can be easily replaced by the Secvest 2WAY FG 350 E wireless window handle. The handle is available in white, brown, or silver.

Technologies

- Increased security thanks to locking surveillance
- The discreet solution in window security
- Simple installation by replacing the standard window handle
- Reliable transmission of window status (open or closed) to the alarm centre
- Elegant, timeless design

Technical data - Secvest 2WAY FG 350 E wireless window handle, brown
