

Recorder Padlock

Art.-Nr. TVAC40920

Seite 1 von 1

Protect the valuable video data on your hard disk effectively from unauthorized access! The recorder padlock provides effective, mechanical protection and makes it practically impossible for data thieves to access the hard disk of your ABUS digital recorder (TVVR400x0) or hybrid digital recorder (TVVR500x0). And the best thing is: thanks to the 3-digit number code you are freed from the burden of storing keys.

Technologies

- Protects hard drives from access
- Can be used with ABUS recorders TVVR411x0, TVVR45020, TVVR600x0, TVHD80000
- Adjustable 3-digit number code
- Solid aluminium lock body with anodised coating
- corrosion-resistant
