19.5" HD+ LED Monitor

Art.-Nr. TVAC10031

Seite 1 von 2

The 19.5" HD+ LED monitor offers sharp images in 16:9 format and is ideal for surveillance projects with an ABUS recorder. High-resolution images are displayed via an HDMI cable.

Detailed surveillance pictures

Thanks to its high resolution, outstanding picture fidelity and rapid reaction time, the monitor produces accurate surveillance pictures. The LED backlighting ensures optimum contrast and an extremely realistic colour display.

Versatile connections

The HDMI, VGA and DVI video inputs offer flexibility for connecting the monitor to a recorder or a computer. Integrated loudspeakers and audio inputs also allow sound signals to be played back. All of these features make the monitor a cost-effective component for versatile surveillance and IT systems.

Energy efficiency The energy-efficient LED display ensures very low power consumption.

Easy installation VESA standard mounts allow mounting to a wall or ceiling. This makes installation fast and easy.
