

The wall bracket is an optional accessory for the IPCA camera series in dome design. It is used to carry out a professional wall mounting of the dome camera in a horizontal position. The sturdy aluminium construction makes it possible for cabling to be both protected and laid internally, and is suitable both for indoor and outdoor use. Compatible with the following models: IPCA72520, IPCA73500 and IPCA76500

Technologies

- Compatible with IPCA72520, IPCA73500, IPCA76500
- Conceals and protects wiring both indoors and outdoors
- Internal cabling is possible
- Sturdy aluminium construction
- For mounting on walls
