

SFP Module Singlemode

Art.-Nr. ITAC10260

Seite 1 von 2

For promising networking of professional security surveillance systems.
The standardised SFP module is used to connect duplex single-mode optical fibres.

It is compatible with all standardised SFP slots and is required for use of the LWL port in our switches and the media converter.

Technologies

- SFP modules for LC plugs according to SFF-8472 standard
- Supports hot-plug
- Supports single-mode optical fibres
- Transmission distance of up to 20 km
- 1310 nm FP laser
- Complies with the IEC-60825 laser safety standard

Technical data - SFP Module Singlemode

DC voltage supply	3.15V-3.45V V
Dimensions	(LxWxH) 56 x 14 x 6 mm mm
Height	6 mm
Length	56 mm
Max. humidity	95 %
Max. operating temperature	70 °C
Min. operating temperature	0 °C
Net weight	0,017 kg
Optical Fibre Port	LC
Optical Fibre Type	Single mode 9/125um
Optical Wave Length	1.310 nm
Power consumption	1 W
Transmission distance	20.000 m
