

LOTO Bag small

AN IDEAL SOLUTION TO HAVE EVERYTHING AT HAND AT ALL TIMES

The featherweight ABUS LOTO pouches in two sizes are worn on the belt thanks to the loop on the back.

Compact and effective solutions are a good choice for use in construction projects or for the maintenance of machines in external use. This way, the safety locks and latches are always with you and quickly at hand and stowed away again with the help of the practical 2-way zip. We will be happy to advise you in order to put together a custom-fit LOTO kit for your needs.
