

SEE WHO IS AT THE DOOR

Reliable and compact door viewer for your home.

Senior citizens in particular are popular victims for tricksters. Security for you and your loved ones is provided by this door viewer. The peephole consists of a scratch-resistant glass lens and a strong brass housing. It is quickly and easily attached to doors up to 53 millimetres thick and allows a 180-degree view outside by means of a wide-angle lens.

Technologies

- Wide-angle lens of approx. 180°, you can see every corner in front of the door
- Adjustable, for door thicknesses between 35 - 53 mm
- Brass casing
- Glas lens

Operation and use

- For house entrance doors and flat entrance doors
- Easy to look through

Variants

- Finishes: brown, silver, gold
- For thicker doors mm extensions are available (wide angle view will be reduced)
- Cover cap available to prevent light output
- Covering rosette available to adjust the door viewer to an existing hole
