

SAFETY FOR CHILDREN

This window handle provides double protection. Against children's hands and burglars.

There are some dangers for children in your home. This also includes windows that are not sufficiently secured. This lockable window handle closes securely. Whether on windows made of plastic, aluminium or wood, this window handle can be used universally. The square bolt can be flexibly adjusted, the handle always fits. It is also certified according to DIN 18267 and protected against twisting and tearing off with a pressure resistance of 200 Nm.

Technologies

- Individually adjustable, secured square bolt
- 7 mm square bolt, distance of screws 43 mm
- DIN18267 class 2
- 200Nm resistance against pulling and tearing off
- Wear-resistant quadruple ball fastening
- Incl. two keys
