

MORE PEACE FOR PARENTS

When children explore the world, windows become a danger. Not with this window handle.

As parents, you must always keep the safety of your children in mind. You should not have to worry about inadequately secured windows. This window handle closes with a push button cylinder with reversible key, even when tilted. It can be conveniently attached to windows with plastic, aluminium or wooden frames, which are then protected from careless children's hands and also burglars.

Technologies

- Individually adjustable, secured bolt, 28–44 mm long
- 7 mm square bolt, distance of screws 43 mm
- Also lockable in tilt position
- Push button cylinder with reversible key
- Includes one key, triple version includes three keys

Operation and use

- Can be used on standard inward opening windows in place of the window handle
- Also suitable as a child-proof lock
- The handle is locked by pushing in the cylinder, open with the key

Variants

- Colours: anthracite grey, brown, silver, white
-
