Safety vest Lumino Urban Vest silver L

Illuminated in the dark

With our Lumino Urban fully reflective safety vest, cyclists are highly visible in road traffic.

Especially at night and at dusk or in poor visibility due to fog or rain, we recommend putting on our safety vest over your jacket. It is fully reflective. As soon as it is illuminated by headlights, the whole thing glows strikingly in silver with blue stripes. With the high-quality zip, the vest can be pulled completely closed at the front and is very comfortable. This way, you are always clearly visible to other road users on your bike on your way to work. The Lumino Urban Vest is tested according to the European standard EN 17353:2020. Tip: Attach one of our LED flashing lights, Lumino Indicator Light or Lumino Easy Magnet Light, to the tab on the back. This way, you are even more visible thanks to an additional light element.

Technologies

- 100% polyester
- Fully reflective safety vest: Almost the entire surface of the safety vest is brightly illuminated by headlights.
- Colour coordinated stripes
- Visibility of 150 metres in the dark
- Tested according to European Standard EN 17353:2020 (B3)
