LED night light JC8690 MILA Dino

Seite 1 von 2

Fall asleep relaxed

Our LED night light MILA ensures that your child falls asleep relaxed.

Our MILA LED night light comes in the form of a small green dinosaur and glows reassuringly in the dark. Simply place MILA on the bedside table or near the bed and choose between two brightness levels. This way, your child does not feel alone when falling asleep and can glide calmly into the realm of dreams. MILA switches off automatically after approx. 30 minutes. MILA works with conventional AAA batteries or rechargeable batteries.

Technologies

- Two brightness modes selectable at the touch of a button
- Automatic switch-off after approx. 30 minutes
- Height approx. 12 cm
- Screw-down battery compartment for three AAA batteries (use of rechargeable batteries possible). Batteries not included.
- Meets the strict requirements of the European standard EN71

Operation and use

Night light with cute design to soothe to sleep

Variants

• The night light is also available in hedgehog and crocodile.
