

THE SIMPLE WAY TO SECURE YOUR SCOOTER AGAINST THEFT

10 mm of steel lock around your scooter's disc brake to prevent the vehicle from being quickly pushed away and stolen. A compact lock with a big effect and convenience to boot. The user-friendly cylinder enables fast and simple locking by automatically locking the bolt. An advantage for all those who lock and unlock the lock several times a day.

Technologies

- 10 mm locking bolt
- "push down" - cylinder
- The bolt, body and the structural parts of the locking mechanism are made of specially hardened steel
- Three keys are included in the scope of delivery

Operation and use

- Basic protection where there is a low theft risk
- Recommended for protecting lightweight motorbikes and scooters

Tips

- Disc brake locks are the most compact category of motorbike locks and are therefore easy to transport
- To increase the security during longer parking times, it is recommendable that you also secure the motorbike to a fixed object
