

Fireplace guard JC9500 FELIX

Seite 1 von 2

Secure fireplaces etc.

Keep children away from hearths and other fireplaces with our FELIX fireplace guard.

Babies, toddlers and preschool children often know no fear of contact or first have to learn that they have to be careful of some things. Therefore, additionally secure your hearth or fireplace so that nothing happens to children. Among other things, FELIX can be permanently mounted on the wall. To be able to step directly up to the hearth or fireplace to add wood, you can open and close FELIX using a flexible element.

Technologies

- Incl. 5 panels and brackets for wall mounting
- Total length: 315 cm
- Height of the fireplace guard: 74 cm
- Total length of all elements: 315 cm
