YouDrop FF midnight blue S

A HELMET FOR COURAGEOUS KIDS

Faster, further, higher: Young mountain bikers are especially daring when they whiz down rough tracks or explore adventurous trails.

This makes effective protection a necessity. With the YouDrop FF full-face helmet, every up-and-coming pro is well protected, just like their role models from the MTB scene. Whether big or small, on a balance trainer or a mountain bike, the helmet is suitable for all kids and youth. The chin guard on the helmet protects facial areas such as the jaw or chin and can be removed if necessary. In its open face version, the helmet takes no time at all to become an airy and casual companion on the next bike ride. Even during daring jumps or downhill action, the clever ventilation system in the YouDrop FF keeps your head cool. If you start to sweat, you can remove the comfortable pads in the helmet and wash them by hand. A removable visor with break-away function, integrated bug mesh and our MTB-specific adjustment system round off the overall package.

Technologies

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Reflector Sticker: for better visibility in the dark
- Removable Chinguard: the chin guard of the helmet is removable, allowing flexible use of the helmet – with or without a chin guard
- Peak with Velcro fastening: peak for protection from sunlight and hanging branches is attached to the helmet by a Velcro fastening and can be removed – it detaches automatically in the event of a fall to minimise strain on the neck

YouDrop FF midnight blue S

- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Stitched straps: for optimum aerodynamics, the straps are sewn and therefore do not require any strap dividers – this means they fit particularly snugly and do not flap while riding
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection

Technical data - YouDrop FF midnight blue S
