Skurb Kid green jungle M

SKATER STYLE FOR COOL KIDS

A child's life takes place outside. The Skurb Kid provides reliable protection for little explorers - so that the next adventure can start.

There’s no limit to how fast and furious kids want to ride on their bikes, skateboards and scooters. We want to give them the best possible protection while they do it. That's why we use the proven In-Mold process to create a permanent bond between the robust outer shell and the shock-absorbing helmet material of the Skurb Kid - for the best possible stability. As the saying goes, when you fall down, you get back up and keep going. The adjustment system with a handy wheel at the back of the head ensures individual wearing comfort: The helmet adjusts to the head size and also provides space for a ponytail. A robust and lightweight helmet that doesn't slip and will win over kids with its skater look. Parents can include the little ones in deciding what to buy, so that they will be even more enthused about putting on their new helmet. Young bikers and skaters can choose between different colours and patterns for the Skurb Kid.

Technologies

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Rear Light (optional): Light for the rear of the helmet for better visibility in road traffic – can be purchased as an accessory and is not included in the scope of delivery
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Stitched straps: for optimum aerodynamics, the straps are sewn and therefore do not require any strap dividers –

Skurb Kid green jungle M

this means they fit particularly snugly and do not flap while riding
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection
