

GRANIT™ CityChain XPlus 1060/140 black

TOUGH, INTERLINKED AND SECURE

Thieves using conventional methods will find the GRANIT CityChain XPlus™ 1060 a tough nut to crack.

This is because the lock-chain combination is packed full of strong innovations. Patented ABUS Power Cell technology foils general attempts to remove the lock by hitting or pulling. A further security patent from us: the ABUS Power Link technology, which allows the chain to be directly connected to the Power Cell - the lock body.

But the GRANIT CityChain XPlus™ 1060 can do even more. The interlinked sleeve of the lock provides effective protection against violent methods of attack. And those who attempt to tamper with or pick the lock will face stiff resistance with the ABUS XPlus Cylinder.

Technologies

- 10 mm hexagonal chain with textile sleeve to protect against damage to the paintwork
- ABUS (patented) Power Cell technology offers the highest protection against hitting and pulling attacks
- ABUS Power Link technology (patented) allows for a direct connection from the chain to the Power Cell
- Interwoven connection of the lock body to protect against brutal methods of attack
- The chain, the lock body and supporting elements of the locking mechanism are made of specially hardened steel
- ABUS XPlus cylinder for the highest level of protection against tampering, e.g. picking
- Two keys are included in the scope of delivery
- Cover to protect the keyhole from contamination
- ABUS Code Card for additional and replacement keys

GRANIT™ CityChain XPlus 1060/140 black

Seite 2 von 2

Operation and use

- Good protection against medium risk of theft
- Recommended for securing motorbikes and scooters
- The longer the chain, the easier it is to attach to a fixed object

Tips

- You can order several one-key-fits-all locks. This allows you to use a single key in conjunction with multiple locks/locking mechanisms
- Very easy handling, because only one end of the chain has to be locked
- For secure transportation we recommend the Transport Bag ST1010 (only fits 110 and 140 cm chain lengths)

Technical data - GRANIT™ CityChain XPlus 1060/140 black

Length	140 cm
Locking type	key
Weight	3260 g
chain length	140 cm
chain thickness	10 mm
color of facets	black
design color	black
diameter	10 mm
type of cylinder	XPlus
EAN	4003318188961
