

MORE THAN A PATIO DOOR

Turn your patio door into a full-fledged entrance. A quick trip into the garden with the dog and back again, or entering the house via the terrace with your hands full after shopping - the smart WINECTO One window actuator makes it child's play. And thanks to the proven ABUS SmartX™ technology, you are always on the safe side.

WINECTO One can be installed quickly and easily - without drilling or routing cables. Thanks to its reliable 3D alarm sensor technology, this smart window door actuator provides additional security combined with convenient operation and issues an alarm in the event of an attempted break-in.

Operation is very simple: open and close your patio door with the practical ABUS One app on your smartphone and smartwatch or conveniently using optionally available components. You have an overview of who is using your patio door as a back entrance. To do this, you manage individual access authorisations for family and friends - either permanently or for a limited period of time.

Use the separately available BRIDGE One to control your WINECTO One remotely and integrate it into your smart home - with the benefits of voice assistants, scenarios and routines.

With WINECTO One installed, you can still open and lock your door manually - mechanical operation remains the same. Smart and secure - WINECTO One.

Technologies

- Motorised opening or locking of the patio door or window

- High security through ABUS SmartX™ technology, AES-128-bit encryption and ABUS keycard for admin authentication
- Simple and wireless installation, fast and uncomplicated start-up with the free ABUS One app
- Power supply via replaceable batteries (6 x AA batteries are included)
- Early alarm output for break-in attempts thanks to 3D alarm sensor technology – adjustable alarm volume up to 110 dBA
- Simple arming and disarming of the alarm by manual operation of the push button cylinder
- 100 Nm twist-off and tear-off resistance – suitable for burglar-resistant elements according to DIN EN 1627

Operation and use

- For French windows, patio doors, balcony doors – open and lock with the ABUS One app
- Suitable for inward-opening windows and French doors with 7 mm square bolt
- Easy operation with the ABUS One app on the smartphone or smartwatch, by code input, finger scan or keystroke
- Send access authorisations and limit them in time or share permanent access
- Mechanical operation of the window handle is also retained with WINECTO One
- Optionally upgradable to the security variant with increased mechanical break-in resistance via retrofit set and bar set (we recommend a specialist dealer for installation)
- Real-time remote access to all functions such as unlocking, locking, viewing event logs and managing access permissions as well as optional integration into smart homes via the separately available BRIDGE One.

Variants

- Colours: black, silver, white
- Bittings: keyed to differ or keyed alike (AL0089, AL0125, AL0145)
