2 TB 2,5" SSD Hard Drive SATA WD Red

The new WD Red SA500 SATA SSDs are the perfect storage medium for the network recorder integrated in the alarm panel of your Comfion security system. Unlike other SSD storage devices, the WD Red SA500 is specially designed for continuous operation and continuous recording. The high read/write speed (500MB/s) enables fast access to large files so that playback of stored recordings is fast and without loss of time.

Technologies

- SSD hard disk with 2 TB storage capacity in 2.5"
- The WD Red SA500 SATA SSDs are specially designed for reliable continuous operation and are therefore ideal for use in the Comfion security system
- Suitable for 24/7 recording
- Fast access to large files thanks to optimized caching combined with high endurance for high read/write loads

Technical data - 2 TB 2,5" SSD Hard Drive SATA WD Red

Capacity	2.048 GB
Compatibility	Comfion FUAA80000
Connections	SATA
Dimensions	100,2 x 68,85 x 7 mm
Gross weight	0,038 kg
Height	7 mm
Length	100,2 mm
Max. humidity	85 %
Max. operating temperature	70 °C
Max. reading speed	560 MB/s
Max. writing speed	530 MB/s
Min. operating temperature	0 °C
PSTI conformity required	No
Storage capacity	2.048
Width	68,85 mm
